**SPECIFICATION:**

- Strong durable kneepad design
- Long cap offers maximum surface coverage
- Cordura® Nylon cover
- Finished brushed tricot liner wicks away moisture and keeps out dirt and debris
- Adjustable to fit most sizes

KNEE PADS

Anti-Riot Helmet is produced by Holsters HPE Poland. It is used by polish police and polish border guards in riot situations. It is very useful, efficient and effective equipment in each police team. It fulfills requirements PN-V-87001:1999 and PN-EN 397:1995.

#### SPECIFICATION

- Special process of production makes that helmet fulfills high requirements of protection
- fragmentation protection - V50 - 250 m/s
- Visor: 3,5 or 4 mm, Lexan UV
- protects against stones, bricks etc.
- weight: 1,6 kg
- allows use the gas mask
- allows use a different types of communication system

2992

It is ideal for violent situations which may become static for long periods and maximum protection is required from thrown objects, improvised weapons such as street furniture, or petrol bombs.

The multi purpose design of the shield allows for numerous tactics to be used. Group formations are enhanced due to the rapid interlocking capability, a typical mutual protection unit being three long shields in front and three intermediate shields for overhead protection. Capable of surviving extensive impact.

#### SPECIFICATION:

- **LONG SHIELD** Height 1800mm x Width 570mm with 3 or 4 mm thickness
- **SHORT SHIELD** Height 1200mm x Width 570mm with 3 or 4 mm thickness

Essential equipment for tactical or disturbance control situations. Hard polyethylene shell with interior leg brace support can safely withstand a substantial blow to the leg from non-ballistic weapons or flying debris.

#### SPECIFICATION:

- All Black; non-reflecting
- Polycarbonate hard-shell shin portion
- Adjustable or removable foot protector
- Upper knee stabilizing strap with protective padding
- Padded outer ankle protector
- Three hook and loop elastic straps on the backside of the leg provide a secure fit

2873

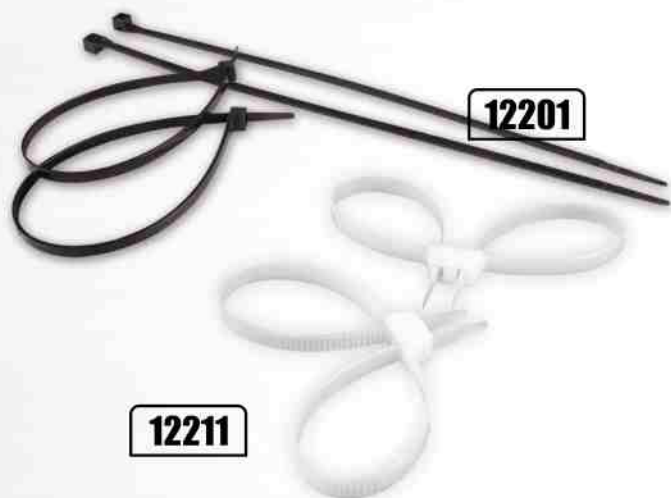

**SAMPLE SPECIFICATION:**

- weight 0,380 g
- material: carbon steel
- material hardness: 35 HRC
- double lock: yes
- strain force resistance: at least 2000 N
- keys supplied: 2 pieces

**OVERSIZED LEG or LEG-HANDS METAL HANDCUFFS**

**SPECIFICATION:**

- featuring a unique strength barb system contained within the Flex-Cuf head makes them virtually pickproof
- the smooth inside surface, combined with rounded edges, were designed to minimize the chance of abrasion or tissue damage
- nylon construction offers dimensional stability as well as flexibility

Safety Cutter offers lever action for smooth cutting of disposable plastic. One squeeze removes nylon restraints simply and safely. It can be used to double lock a disposable cuff by quickly trimming off any excess material away from the locking head.

**SPECIFICATION:**

- Simple, fast, one-squeeze operation
- Pocket-sized for easy carry
- Safety design assures blade cannot be used as a weapon
- Right or left hand operation

Tonfa is produced by Holsters HPE Poland. It is used by polish police in riot situations. It is very useful, efficient and effective equipment in each police team.

**SPECIFICATION:**

RATOWNIK

PEPPER SPRAY is a 1.3% capsaicinoids concentration suspended in a stream formula. It minimizes cross-contamination making it ideal for use indoors and outdoors even in windy conditions.

The non-flammable formula will not ignite with any electronic devices. These specialized pepper sprays are designed to be deployed by tactical teams during high-risk warrants, hostage rescues and barricaded subject situations.

**HI-MAX:**

- 1.33% Capsaicinoids
- Potent "ballistic" stream provides maximum protection in most situations
- Non-flammable formula effective against those with decreased sensitivity to pain
- It is most widely used pepper spray in law enforcement corrections

**WE PRODUCE, YOU PROTECT**
